Glad to report that the weather was great for horseshoes during the 2022 Wednesday Friendlies and we were able to go 6 weeks. **Last night was October 19th.** It was getting dark pretty early even in September, and lighting on the pits was limited. However, we made the best of it. We switched gears part-way through as there were security issues at Symposion, plus thought it a good idea to give another bar the opportunity. We moved to LDG for last 3 weeks. Thanks to all those that came out to play and thanks to the sponsors as well. Hope to continue something similar in 2023 (either prior to or following regular season play).
